ULTRAGUARD
Antifouling

MGPS Join Ayrshire Chamber of Commerce

Marine Growth Prevention Specialists Ltd (MGPS) have joined The Ayrshire Chamber of Commerce.

We were formed and have built our Ultraguard Antifouling brand from our headquarters in North Ayrshire. Starting in Kilbirnie we have grown into our current office and warehouse facility in Glengarnock.

“We have developed quite a close working relationship with Ayrshire Chamber for export paperwork and customs forms, so it really made sense to look at full membership.” Said Claire Rodden, MGPS’s General Manager.

Chris Ryan, Managing Director added: “Despite over 90% of our turnover coming from export sales, the Ultraguard team really felt that we should be taking a more active part in the Ayrshire business community. We already use some of the Chamber’s services, but we would like to take advantage of the network they bring too.”

MGPS have taken a Gold + Membership which we feel best represents where we are currently as a business and where we would like to grow to.

We're a

gold+ member
